

PROJECT FLOW

DATE	11 November 2022
TEAM ID	PNT2022TMID14746
PROJECT NAME	Fertilizer Recommendation for Plant Disease Prediction

Project Flow:

- ☐ Download the dataset.
- ☐ Classify the dataset into train and test sets.
- ☐ Add the neural network layers.
- ☐ Load the trained images and fit the model.
- ☐ Test the model.
- ☐ Save the model and its dependencies.
- ☐ Build a Web application using a flask that integrates with the model built.
